## **Rat IgG**

**Catalog No.** GB-10564

**Quantity:** 100 $\mu$ g

**Applications tested:** ELISA, Western Blot

**Host species:** Rat

**Form:** Affinity purified antibody

### **Applications:**

ELISA, Western Blot as follows.

Suggested Working Dilution Range:

For enzyme immunoassay (ELISA): 1:1,000~1:5,000

For Western Blotting: 1:1,000~1:5,000

Optimal working concentrations should be determined experimentally.

### **Reconstitution and Storage:**

It is supplied as affinity purified antibody in PBS in lyophilized powder. Redissolve the powder with 100 microliter sterile water will restore to the original concentration 1.0mg/ml.

Store at 4°C (short-term application), or diluted with an equal volume of Glycerol and stored at -20 °C.

**FOR RESEARCH USE ONLY AND NOT INTENDED FOR DIAGNOSTIC OR THERAPEUTIC USE**
