

## **FAM111B (Cancer-associated nucleoprotein), CANP (aa. 500-734)**

**Catalog No.** PY-20111

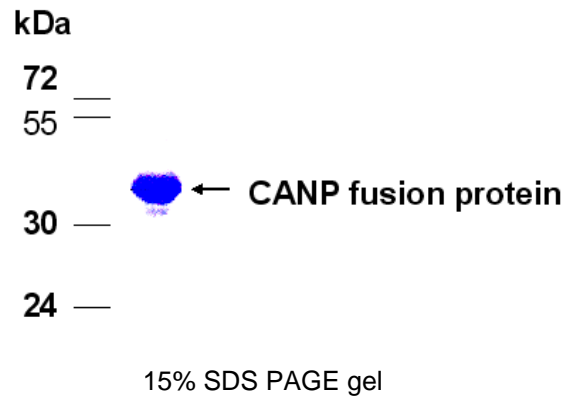

**Scale:** 1 mg

**Form:** lyophilized protein

### **Target description**

Cancer-associated nucleoprotein family with sequence similarity 111, member B.

### **SDS PAGE analysis** (Commassie blue staining)

### **Products**

E. coli derived CANP fusion protein ( aa.500 ~734 )

### **Comments**

**Protein ID :** GI: 74758524

**Fusion tag :** 4kDa (His-tag)

**Purity :** > 90%

**Fusion protein size :** 35 kDa

### **Related product**

### **Storage**

Redissolve the powder with 1ml sterile water will restore to the original concentration 1mg/ml. For long-term storage at -20°C. Aliquot to avoid repeated freezing and thawing.

### **Application**

Dilute with 1XPBS for Western blot, ELISA test antigen, Immunogen

**FOR RESEARCH USE ONLY AND NOT INTENDED FOR DIAGNOSTIC OR THERAPEUTIC USE**
