

## Urocortin 3, urocortin 3 preproprotein,UCN3, stresscopin (a.a.1-161)

**Catalog No.** PY-20120

**Scale:** 1mg

**Form:** lyophilized protein

### Target description

urocortin 3, urocortin 3 preproprotein,UCN3,  
stresscopin

### SDS PAGE analysis (Coomassie blue staining)

kDa

31 —

24 —

19 —

← UCN3 fusion protein

### Products

E. coli derived UCN3 (a.a.1 -161)

### Comments

Protein ID: GI: 45238845

Fusion Partner: 4kDa (His-tag)

Purity: > 90%

Buffer: 1XPBS

Expressed In: E. coli

Fusion Protein Size: ~20kDa

E coli-derived UCN3 fusion protein.  
15% SDS PAGE gel analysis.  
Coomassie blue staining

### Storage

Redissolve the powder with 1ml sterile water will restore to the original concentration 1mg/ml. For long-term storage at -20°C. Aliquot to avoid repeated freezing and thawing.

### Application

Dilute with 1XPBS for Western blot, ELISA test antigen, Immunogen

**FOR RESEARCH USE ONLY AND NOT INTENDED FOR DIAGNOSTIC OR THERAPEUTIC USE**
